## Audio (6 out)

|   |                                |                                    |               |
|---|--------------------------------|------------------------------------|---------------|
| 1 | Keyboard 1 + 2 + Effect Looper | (Keyboards out from a mixer)       | – <b>JACK</b> |
| 2 | Voice Chloé + Voice Effect     | (Mic Shure Beta 87) + (Boss VE-20) | – <b>XLR</b>  |
| 3 | Voice Etienne                  | Any microphone                     | – <b>XLR</b>  |
| 4 | Midi Guitar                    | (GR-55 + FX straight into desk)    | – <b>JACK</b> |
| 5 | Machines <b>Left</b>           | (Machines out from a mixer)        | – <b>JACK</b> |
| 6 | Machines <b>Right</b>          | (Machines out from a mixer)        | – <b>JACK</b> |

## In-ears monitors (2 in)

|         |                               |                             |                      |
|---------|-------------------------------|-----------------------------|----------------------|
| Input 1 | In-ears monitors <b>Left</b>  | (Sound from the desk to us) | – <b>JACK or XLR</b> |
| Input 2 | In-ears monitors <b>Right</b> | (Sound from the desk to us) | – <b>JACK or XLR</b> |

## Normal monitors (?? in)

We would like to have the same sound as in the in-ears in normal monitors (as well).

## Video (hdmi)

Media player to projector via **hdmi cable**. We need a **projector** if possible.

We don't have the items in **yellow** and need to borrow from the venue
